Objective

Java Fullstack Developer with hands-on experience building production-grade **Java, Spring Boot, systems, and Fullstack applications**. Proficient in **Java, React, MySQL, FastAPI**, and **API integration (REST, JSON)**. Strong foundation in **Software Testing, SDLC, Java design patterns**, and **backend development**. Passionate about **delivering scalable, high-performance software solutions** at Infosys Limited

Experience

Infosys Limited | Java Fullstack Developer

July 2025-Present

- **Developed Java Fullstack applications using** Spring Boot, Hibernate, and React **to optimize backend APIs and frontend components at Infosys Limited**, improving system performance and reducing latency for enterprise-level web service workflows.
- **Developed** enterprise Java **full-stack applications** leveraging **Spring Boot and React**, **optimizing API performance** and database integration for scalable cloud-based solutions.
- **Developed Java RESTful APIs for scalable** web applications; utilized Spring Boot and **Hibernate** to optimize backend performance and **database queries by ~30% for high traffic**.
- **Developed Java-based fullstack web applications** using Spring Boot and React; **integrated RESTful APIs and optimized database queries** to improve system scalability.
- **Developed scalable fullstack Java applications** using **Spring Boot and React**; optimized **backend APIs and database queries**, reducing latency by 20% in **production environments**.

Projects

Java Fullstack Developer | Java, Spring Boot, React, MySQL, Docker, REST API, Git

Jan 2025

- **Java Fullstack:** Engineered scalable microservices at Infosys Limited using Spring Boot;
- **Developed** a Java Fullstack **application: designed RESTful microservices** → **integrated Spring Boot backend** → deployed with **React** frontend on AWS utilizing MySQL data persistence.
- **Developed** Java-based RESTful microservices **using Spring Boot**, implementing **Hibernate** → **secure API integration** → **MySQL database** → **unit testing** → **AWS deployment, optimizing**
- **Developed** Java microservices **using Spring Boot** with **REST APIs**; integrated **JUnit** testing for code coverage **reliability** and performance **optimization**, improving system **latency by 25%** via **caching frequently accessed database queries**.
- **Developed Java-based full-stack features, reducing** latency by 20% using RESTful APIs and SQL optimization.

Skills

Java Fullstack: Java 8/11/17, Spring Boot, Spring MVC, RESTful APIs, Hibernate, JPA

Frontend Dev: Angular, React.js, HTML5, CSS3, JavaScript (ES6+), TypeScript, Bootstrap

Database & OS: MySQL, PostgreSQL, Oracle, MongoDB, JDBC, SQL Optimization, Linux/Unix

DevOps & Tools: Maven, Gradle, Git, Docker, Jenkins, Postman, JUnit, Microservices

SDLC & Method: Agile/Scrum, Software Testing (JUnit/Mockito), Debugging, AWS/Azure Basics

Languages: Java, JavaScript, SQL, Python, C++, HTML/CSS (Infosys Limited)

Achievements

- **Leetcode (Max Rating 1797)** | Top 5% in India Among 100,000 active users.  [Leetcode](#)
- **3 Star - Codechef (Max Rating 1628)** | Top 5% Among 170K+ Active Users  [Codechef](#)
- **Pupil - Codeforces (Max Rating 1206)** | Top 10% Among 70K+ Active Users  [Codeforces](#)
- **1st Place in VNPS** | National Level Project Showcase
- **3rd place in CodeCraze** | Data Structures and Algorithm Implementation Based Competition

Education

Vidyavardhini's College of Engineering And Technology

May 2025

Bachelor of Engineering in Computer Science - CGPA - 8.5
